Alicia Lemke

All businesses need to have an appropriate Safety program. It is our mission to help employees leave at the end of their day in at least as good condition as when they walked through the door at the beginning of their work day, all while keeping the company's interests in mind. We offer customized, creative, comprehensive safety programs and solutions for your business.

Headquartered in Milwaukee, Wisconsin, our woman-owned business has consultants with over 20 years experience in Safety relating to, but not limited to:

- Recordkeeping
- Powered Industrial Equipment
- Lock out / Tag out
- Hazard Communication
- Personal Protective Equipment
- Respirator Fit Testing
- Machine Guarding
- Combustible Dusts
- Fire Prevention
- Emergency Action Plans
- Homeland Security
- Overhead Cranes
- Accident Investigation
- Expert Witness
- Fall Protection
- Fire Inspection

We service Manufacturing, Warehousing, Food Processing, Heavy Industry, Foundries, Railroad, Hospitality, and more.

We offer a walk-through survey to best identify your needs and can develop specific plans to ensure your company complies with all pertinent requirements. We also offer project-based training (such as forklift operator training) on-site, customized to your equipment and site.

Alicia Lemke is the owner of Complete Safety Concepts, LLC. All consultants have a degree in Occupational Safety and at least 10 years experience in the field. We are members of the Wisconsin Council of Safety, the National Safety Council, the World Safety Organization and the Fire Inspectors Association of Wisconsin.
