John Schaefer

The nature of global competition mandates that companies embrace the principles of Lean Strategies and Continuous Improvement for organizational survival.

We believe that lasting organizational change must be accomplished by teams of internal process owners. Our role is to educate and facilitate teams charged with creating significant positive process change. Typical team events are accomplished in a Blitz format, with change realized in an intense three to five day effort.

Typical events include:

- 5-S Process Improvement Events
- Demand-flow Events
- “Pull” Inventory Replenishment System Events
- Quick Changeover Events
- Business Process Waste Elimination

Our Team Facilitator, John Schaefer, has 37 years manufacturing experience and 12 years experience as a Facilitator of over 100 Process Improvement Teams in a wide variety of manufacturing and service organizations.
