SKIP KRAUSE

Skip Krause has over 21 years of experience in the Training & Education Industry. He has led programs which developed platform and computer delivered instruction for various commercial industries and federal government clients. He has successfully delivered cost effective programs which incorporated:

- Curriculum Planning and Development
- Instructional System Design
- Instructor Led and Self Paced Courseware
- Interactive, Fully Remediated Multimedia Instruction
- Hands On Skills Training
- Distance Learning
- Instructor Training
- Learning Management Systems
- Post Instruction Analysis
- Documentation and Certification

Successful cost effective programs and customized solutions are developed through a 5-Phase Development Process involving:

- I. Envisioning – Initial development of the clients blueprint for success
- II. Architecting – Complete development plan with schedule and costs which create program milestones leading to success
- III. Development – Management of the development team through program completion
- IV. Implementation – Oversight of introduction of the solution to the client's team including necessary training
- V. Debrief and Review – Collection of feedback from all levels of the client and submission of a final report with recommended version upgrades or improvements

Skip will utilize his knowledge and experience to deliver clients the most cost effective methods for their training and educational requirements.
